Author (Position):	President
Version:	1
Approved By:	MIE Governing Body
Policy Approval Date:	January 2019
Date of Next Policy Review:	April 2023 (or as necessary)

Waste Management and Recycling Policy

1. Context

Marino Institute of Education (MIE) is a third level community of teaching and learning that is committed to undertaking activities with regard to waste management and recycling commensurate with respecting the [environment](#).

2. Purpose

It is our aim with this policy to set out measures that ensure we comply with all statutory regulations in terms of managing our waste and limiting the impact of our activities on the environment.

3. Benefits

The benefit of having a policy and ensuring that we are compliant in terms of our responsibility, is that we know we are not causing any undue harm to the environment and can be regarded as doing everything we can to limit any damage that may be caused.

4. Policy

Throughout MIE we have a system of recycling and this is done in accordance with what is required by our waste management disposal company.

4.1 The main waste/recycling streams into which the waste is divided are:

- i. General Waste;
- ii. Mixed Dry Recycling;
- iii. Compostable Waste;
- iv. Cardboard.

4.2 The other items that we recycle and dispose of appropriately include;

- i. Batteries;
- ii. Electrical equipment;
- iii. Oils and greases (from the kitchen);
- iv. Metals.
