1. General Regulations

- (i) The charges for any academic course, examination or other service are those stated in this document for the current academic year or as notified to students by the [Registrar's Office](#).

Marino Institute of Education (MIE) reserves the right to alter its scales of charges at any time. Revised scales of charges will apply from the date appointed by the *Governing Body* to all students pursuing any course where charges have been revised, whether or not such students have entered upon the course before the appointed date. The *Governing Body* of MIE is not bound by any error in, or omission from, these regulations.

- (ii) All charges become due on the dates specified in this document or as notified in the pre-registration pack issued by the [Registrar's Office](#), whichever date is the earlier, for the current academic year, and must be paid into MIE's bank account at Bank of Ireland or to the Finance Office of the Institute on or before that date. Note that it is the student's responsibility to read and be familiar with this document. There are charges and penalties for late payment of amounts due, and charges for repeat examinations/Student Placement, as set out in this document. Students are strongly encouraged to contact the Finance Office (email: studentfees@mie.ie) *in advance* if they anticipate difficulty in meeting any of the payment dates, and to pay careful attention to any communication/reminders from the Finance Office. These will normally be issued by email.
- (iii) The preferred payment method is via the 'Pay Now' button embedded in the invoice. Instructions are set out on invoices. Payment may also be made through any bank, in favour of MIE No.1 Account with Bank of Ireland, 26 Marino Mart, Dublin 3 (IBAN: IE09 BOFI 9005 4322 3995 42), quoting student number or account reference on the payment. Credit/debit card payments are also accepted. Please note that cards may be subject to a daily transaction limit of €1,500 (imposed by the issuing bank).

¹ See [Code of Governance](#) and [Matters Reserved for the Governing Body of MIE](#)

- (iv) Students who are seeking an educational grant may defer payment of student contribution/tuition fee pending the outcome of their grant application but must pay any other amounts due (e.g. Student Levy) prior to registration. All students should notify the Finance Office if they are applying for a grant for the current year, irrespective of whether they were in receipt of a grant in previous years. Students may be requested to sign and return a 'Third Party Authorisation Form' to authorise [Student Universal Support Ireland \(SUSI\)](#) to communicate with MIE in relation to the student's grant status.
- (v) Eligible EU undergraduate students on the Bachelor in Education or Baitsiléir san Oideachais Trí Mheán na Gaeilge programmes may have their tuition fees paid by the Minister for Education and Skills under the Government's tuition fee remission scheme.
- (vi) Students who are required to repeat the academic exercises of a year must pay the full annual tuition fee of the repeated year.
- (vii) Students who wish to receive credit for an academic year on the basis of academic exercises carried out at MIE, but who are granted any exemption from attendance at lectures, must pay the same fee as they would pay if attending lectures.

2. Fee Payment Overview - Undergraduates

2.1 New Students

Undergraduate students who accept an offer of a place in the Institute through the [Central Applications Office](#) (CAO) must comply in full with the instructions set out in the offer notice. The offer will lapse unless accepted within the specified time period. The Institute reserves the right to cancel the offer despite any part payment or performance of acceptance. Students will be contacted by the Finance Office with regard to payment of fees due. Students on the B.Ed. (Irish-English-medium) programmes who are eligible for the Government's tuition fee remission scheme ('Free Fees') will be liable for the student contribution and student levy (see the table of fees and charges below in **Sections 6 & 7**). *Students on those programmes who are ineligible for Free Fees will be liable for both the student contribution (€2,500) and tuition fee (€2,564), as well as the student levy.

The Bachelor of Science courses are not within the Free Fees initiative. The Department of Education and DFHERIS do not pay the student tuition fees and therefore the tuition fees are charged directly to the students.

Students may be required to provide bank receipted evidence of payment of all relevant amounts. Students may opt to pay the student contribution (and tuition fee, where applicable) in two instalments, a minimum of 50% prior to registration and the remaining balance by 31st January. The student levy, however, must be paid in full prior to registration.

Registration is not regarded as completed until the required charges have been paid.

Students not qualifying for the Government's tuition fee remission scheme will be invoiced for any fees due. Such fees (or the first instalment, at least 50%) must be paid by the notified due date, before registration date.

In cases where students are admitted after the beginning of the academic year no reduction of fees will be granted.

**This section is not applicable to International Students*

2.2 New International Students

Non-EU / EEA / Swiss Confederation / UK students entering Year 1 of an undergraduate programme are subject to the following tuition fee payment requirements in order to comply with Irish immigration regulations. Students are required to pay tuition fees in advance of registration for the first year of study. Where the programme fee exceeds € 6,000, non-EU / EEA / Swiss Confederation / UK students are required to pay a minimum of €6,000 and the remaining balance must be submitted by the following 31st January. The student levy, however, must be paid in full prior to registration. All payments must be made in EURO, with no charge to the Institute.

2.3 SUSI Grant-Holders

All incoming students who are offered a place and returning students, irrespective of whether they are grant-applicants, will have the place reserved only on payment of the total amount due for the year OR, if paying in instalments, the first instalment of student contribution and tuition fee (if applicable), OR submission of grant approval details via online MS Teams form , AND payment by the Monday before registration date of any other amounts due (e.g. student levy). Students submitting a grant approval letter at registration nonetheless remain liable for amounts due in the event that the relevant authority does not pay the student contribution or fee for any reason.

Students who receive approval for a partial grant must pay the balance in accordance with these regulations (i.e. 50% prior to registration, the balance by 31st January).

Students who receive grant approval after registration must forward their grant approval letter to the Finance Office upon receipt. The grant-awarding body will then be invoiced for the amount due. Grant-holders will have some or all the student contribution/tuition fee paid on their behalf by the grant-awarding body, and the amount paid by the student will be reimbursed upon receipt by the Institute of payment from the grant-awarding body. If for any reason the relevant authority does not pay the student charge, the student's payment will be retained by the Institute.

2.4 Continuing Students – Payment of Fees

Undergraduate students, including international students, must pay the relevant fee or the first instalment as detailed in the tables below in **Sections 6 & 7**, by the Monday before the commencement of the new academic year. B.Ed. (Irish/English-medium) undergraduate students qualifying for the Government's tuition fee remission scheme will be required to pay to the Institute the student contribution;

Students shall not be permitted to register, attend classes or avail of library, email and other services until all the relevant amounts due have been paid.

Please note that all continuing students are billed on the basis that they are successful in examinations upon which their progression depends. In the event of B.Ed. (Irish/English-medium) students having to repeat their year 'on books' they will also become liable for the full annual tuition fee in addition to the student contribution.

2.5 Payment in Two Instalments

All progressing students may avail of the option to pay the student contribution and, if applicable, tuition fees, in two instalments (at least 50% for Instalment 1). The amounts payable are set out below. The second instalment where applicable will be payable on or before the date set out in the tables in **Sections 6 & 7** below (normally 31 January for all programmes). Instalments received after the due date and before the end of the following month will be subject to a late payment charge of €212. If the second instalment is not paid by the end of that month or if there are other outstanding charges on the student's account (such as Library charges), the student's name may be removed from the Institute's books, but may be reinstated on receipt of payment of €358 together with the balance of fees due.

Note: Charges other than the student contribution and tuition fees (e.g. student levy) may not be paid in instalments and must be paid in full by the Monday prior to registration.

3. Fee Payment Overview – Postgraduates

- (i) Students should have regard to the General Regulations above, which apply to all students.
- (ii) Due dates for PME (Primary) students and all other postgraduate students are set out in **Sections 6 & 7** below.
- (iii) Sanctions and penalties for late registration or payment for all postgraduate students are also set out in **Sections 6 & 7**.
- (iv) Non-EU / EEA / Swiss Confederation / UK students commencing a post graduate programme are subject to the following tuition fee payment requirements to comply with Irish immigration requirements. Students are required to pay tuition fees in advance of commencing their programme. Where the programme fee exceeds €6,000, non-EU students are required to pay a minimum of €6,000 and the balance must be submitted by 31st January. The student levy, however, must be paid in full prior to registration. All payments must be made in EURO, with no charge to the Institute.

4. Exchequer Payment in Respect of Full-Time Undergraduate Tuition Fees

The following are the main eligibility criteria issued by the Department of Education and Skills in relation to the Free Fees initiative. Appendices to the criteria, which relate to nationality and Refugee status and the list of approved institutes (which includes MIE) are not included here. Copies of the full document are available from the Finance Office on request.

4.1 Criteria for Determining Eligibility

4.1.1 Free Fees

Tuition fees may be paid in respect of the full-time students listed below who have been ordinarily resident in an EU/EEA/Swiss State/UK for at least three of the five years preceding their entry to their third-level course and who meet the criteria of the scheme.

Eligibility under the scheme is determined at date of entry to the course in the case of all eligibility criteria except for nationality. With effect from the academic year, 2013/14, a 'Change of Nationality' clause forms part of the Free Fees Initiative (FFI). As was previously the case, students, who do not meet the nationality criteria of the initiative, will continue to be ineligible for free fees, however if such students subsequently acquire EEA citizenship during their third level studies they may be entitled to free tuition fees for the remainder of their course of study. In order to be eligible under this 'Change of Nationality' clause students must have met all other criterion of the Free Fees Initiative, apart from nationality, at date of entry to their course of study.

The initiative is subject to the following conditions;

- (1) Tuition fees will be paid in respect only of students attending full-time undergraduate courses.
- (2) The courses must, other than exceptionally, be of a minimum of two years duration.
- (3) The courses must be followed in one of the approved institutes. MIE is listed as an approved institute.

- (4) Tuition fees will not be paid in respect of:
- students pursuing a second undergraduate course.
 - students who already hold a postgraduate qualification.

Notwithstanding this condition and subject to compliance with the other conditions of the Free Fees initiative, students who already hold a Level 6 qualification (Higher Certificate or National Certificate) or a Level 7 qualification (Ordinary Bachelor Degree or National Diploma) and are progressing to a Level 8 (Honours Bachelor Degree) course without necessarily having received an exemption from the normal duration of the course may be deemed eligible for free fees.

- (5) Tuition fees will also not be paid in respect of students undertaking a repeat year of study at the same year level. In this regard, this condition may be waived where evidence of exceptional circumstances, such as cases of certified serious illness, is provided.
- (6) Subject to compliance with the other conditions of the Free Fees initiative, students who have previously pursued but have not completed a course of third level study and subsequently resume third level studies:
- a. may be deemed eligible for free fees where the third level course concerned did not attract any exchequer funding (e.g. fees, maintenance, tax relief, subsidy towards course cost).
 - b. are not eligible for free fees for the equivalent period of time spent on the first course of study where the third level course concerned did attract exchequer funding (as above). Part-time and evening students are included in this category.
- (7) Tuition fees will be paid in respect of eligible students who, having attended but not completed approved courses, are returning following a break of at least five years in order to pursue approved courses at the same level in the upcoming academic year.
- (8) The tuition fees payable do not include the payment to be made by students towards the cost of registration, examination and student services.

The Institute may require students to provide proof that they meet the above eligibility criteria by either completing a declaration of compliance and/or providing proof of attendance at previous third level courses where appropriate.

It should also be noted that failure to disclose all relevant information required to determine eligibility for the fee remission scheme may render the student liable for the full fees plus a charge of €358.

4.1.2 Self-Funding Programmes

Non-EU students, on self-funded programmes, seeking a change residency status (to EU status) during the course of their studies may be considered, subject to the student meeting the relevant residency, immigration, and eligibility requirements as determined by legislation and institute policy. Any change in status will be assessed on a case-by-case basis and must be supported by appropriate documentary evidence. Approval of a change in status is not automatic and will only take effect from the following academic year after eligibility is formally confirmed by the Institute.

5. Fees for Temporary and Open-Learning Students

Temporary Students

Students may be admitted to attend one or more individual modules in an academic year to make up shortfalls identified by the Teaching Council ('Temporary' students). Fees for these courses are set out in **Section 6.3** and must be paid before 1st September for Semester 1 and before 1st December for Semester 2.

Open Learning

Students who do *not* wish to receive a degree or diploma or make up Teaching Council shortfalls may be admitted to attend a module for credit (€500 per module) or 'Audit only' (attend and do not complete assignments for credit, €350 per module). Module descriptors are set out at www.mie.ie/openlearning.
